

Stanley K. Honey
827 Lytton Rd.
Palo Alto, CA 94301

Professional Resume

Employment:

- Currently Director of Technology, America's Cup Event Authority
- 2004-2010: Technical Director and Navigator, for ABNAMRO Volvo Ocean Race Team, Team Origin America's Cup Team, and Cammas/Groupama.
- 1998-2004: Co-founded Sportvision Inc; President and CTO. Sportvision is the leading US developer of enhancements for sports broadcasts and earned six Emmys for technical innovation during this period. Led the development of the Yellow First Down line used in televised football, the NASCAR racecar tracking and highlighting system, and the baseball K-Zone system which highlights the pitch location and strike zone in baseball
- 1993-1998: Executive VP Technology for News Corporation, reporting to Rupert Murdoch. Supported HarperCollins, TVGuide, ASkyB, BSKyB, and Fox on various technical initiatives. Created the News Technology Group and coordinated News Corporations Internet strategy. Led the development of the FoxTrax system which tracked and highlighted the hockey puck for Fox Sports. Coordinated development of digital set-top boxes, encryption systems, subscriber management for digital satellite TV broadcasters DirecTV and BSKyB.
- 1983-1993: Co-founded Etak; served as CTO, President, and eventually CEO. During this period Etak developed vehicle navigation technology and digital map data that were licensed to GM, Bosch, Clarion, UPS, and FedEx, among others. Etak became TeleAtlas and is now part of Tom Tom.
- 1978-1983: Research Engineer at SRI International. Various developments in radio-location systems, signal processing, underwater sensors, and Over-the-Horizon HF radar.

Directorships and Awards

- Two personal Emmys for technical innovation in sports television (first-down-line for football, and K-Zone for baseball).
- US Rolex Yachtsman of the Year, 2010
- 29 patents (8 in navigational system design, 21 in sports television enhancements).
- Director of KVH, a public company that manufactures satellite communications and navigation systems.
